CHAIR'S MESSAGE

All of us have experienced the challenges, isolation and loss brought on by the pandemic over the last 2 years, both personally and/or professionally. It is now time to flip the script on COVID 19 and “Innovate into the Future” to deliver state-of-the-art care to the most vulnerable. This year’s California Society of Addiction Medicine (CSAM) conference promises topics ranging from core Addiction Medicine concepts to up -and-coming developments in the field. I am excited to meet in person again and reconnect with you at our picturesque San Diego location.

I invite you to share your experiences and knowledge at our Table Discussions — a beloved CSAM tradition. With a focus on lived experience in addiction, we will also have a mentored Mutual help meeting open to all.

Together we will ask: how did those across the globe change their practices post-pandemic? How were addiction treatments managed in low-resource settings? We have a team of international speakers sharing their lessons and discussing how addiction education is changing in their regions. I am pleased that we will feature Elizabeth Miranda-Saenz, MD, MPHDC, from the United Nations Office on Drugs and Crime, who will speak about international perspectives in her role at the United Nations and the World Health Organization.

Regional addiction experts will also expand our horizons. We will have a “Spicy Debate” attempting to distinguish food addiction from eating disorders. Our current CSAM president, Karen Miotto, MD, DFASAM, will provide a fascinating perspective on the Dark Web and machine learning algorithms. Lisa Fortuna, MD, will speak on trauma and caring for a diverse population.

CSAM and the Medical Education and Research Foundation (MERF) have had a long tradition of hosting a poster session. We are pleased to host many exceptional CSAM Posters this year and I am grateful for the tremendous response to our call for submissions. We hope the posters sessions provide a platform for members to share their innovations from different parts of the addiction medicine workforce, with a focus on diversity, equity, and inclusion.

In the spirit of reconnection, I also hope to see you at the networking events, Ice Cream Social, and Dessert Reception. Let’s celebrate being back in person again!

Finally, conference planning is a team sport, and would not be possible without the immense support of our CSAM staff, volunteers, board, and committee members. Please join me in thanking them throughout our wonderful gathering.

See you in San Diego this August.

PRE-CONFERENCE WORKSHOPS

WEDNESDAY, AUGUST 24, 2022

7:30 AM – 4:30 PM | CME Credits: 7

Addiction Medicine Board Exam

Preparation Track

The Addiction Medicine Board Exam Preparation Workshop is designed for those preparing to take the American Board of Preventive Medicine (ABPM) Addiction Medicine Board Exam and is aligned with the Board's exam content Blueprint. The faculty of experienced educators will cover 16 key topic areas, with sample exam questions and rationale provided for answers. Test-taking and study tips will be covered. Registration for the all-day workshop includes access to the online High Yield Question Bank after the conclusion of the conference.

FACULTY: Chwen-Yuen Angie Chen, MD, FACP, FASAM | Thomas Meeks, MD | Daniel Cox, MD | Dustin DeYoung, MD | Isabella Morton, MD, MPH | Katherine Pier, MD | Eleasa Sokolski, MD | Rachel Sussman, MD | Takeo Toyoshima, MD, MRO | Mason Turner, MD, FASAM | Warren Yamashita, MD, MPH | Zachary Zwolak, DO, FAFP, FASAM

MORNING WORKSHOPS

8:30 AM – 12:00 PM | CME Credits: 3

Mindfulness-Oriented Recovery Enhancement: A Treatment for Addiction, Stress, and Pain

This introductory workshop provides didactic and experiential instruction in theory, research, and clinical skill practice integral to the implementation of mindfulness-oriented recovery enhancement (MORE). MORE is an evidence-based, transdiagnostic therapy that unites complementary aspects of mindfulness training, third-wave cognitive behavioral therapy, and principles from positive psychology. MORE's therapeutic effects have been demonstrated in five randomized controlled trials, and the MORE research program is currently supported by more than \$25 million in federal research grants from the National Institutes of Health and the U.S. Department of Defense.

FACULTY: Eric Garland, PhD, LCSW

8:30 AM – 12:00 PM | CME Credits: 3

Treating Opioid Use Disorder and Managing Chronic Pain in Today's Epidemic of Overdose Deaths

This ½ day interactive workshop is designed for clinicians prescribing medication for the treatment of addiction and pain management. It will build skills using buprenorphine in the emergency department, hospital and ambulatory settings and managing challenging inductions such as from fentanyl. An updated comparison on the buprenorphine formulations and clinical use will be provided. We will help clinicians navigate the current climate of the overdose epidemic and the changing regulatory and Drug Enforcement Agency standards of care which mandate requirements for practice, documentation and record keeping. Topics include long-acting depot buprenorphine, transdermal and sublingual buprenorphine for pain, "low" and "high" dose inductions on to buprenorphine.

FACULTY: David Kan, MD, DFASAM | Julio Meza, MD | Hannah Snyder, MD | Matthew Torrington, MD, ABAM, ABPM, AAFP, DFASAM

AFTERNOON WORKSHOPS

1:30 PM – 4:30 PM | CME Credits: 2.5

The Missing Link – Food for Recovery

People with substance use disorder are suffering from nutritional deficiencies which are rarely addressed during their recovery. Food insecurity and lack of knowledge about nutritional food can jeopardize health and recovery. This interactive workshop will give you an overview of the nutritional status and eating habits of people who use drugs and alcohol and/or are in recovery and how to address them. Dr. Linda Shive, an internist and professionally trained chef will demonstrate easy effective recipes. In addition, you will learn about resources like teaching kitchens to empower your patients on their road to a successful recovery. (Seating is limited)

FACULTY: Linda Shive, MD | Ingeborg Schafhalter-Zoppoth, MD

1:30 PM – 5:00 PM | CME Credits: 3

Evaluations of Health Professionals for Substance Use Disorders: What Addiction Medicine Specialists Should Know

This workshop will enhance your ability to effectively evaluate health professionals, and to make accurate diagnoses and recommendations congruent with administrative needs. When an evaluation of a health care professional is required, who does it and what does it include? Learn from the attorneys who represent physicians, from hospital medical staff wellbeing committees and MECs, and from those who specialize in physician fitness for duty evaluations and standards for associated reports. If you order evaluations of health care professionals, conduct evaluations, and submit reports, interpret and use the report, or are an attorney who represents any of those persons/agencies, this workshop is for you.

FACULTY: Gregory Abrams, Esq | David Granovetter, MD | David Kan, MD, DFASAM | Karen Miotto, MD, DFASAM, DFAPA | Gregory Skipper, MD

1:30 PM – 5:30 PM | CME Credits: 3.5

Motivational Interviewing for Busy Clinicians and Educators

This workshop will review and teach Motivational Interviewing (MI) tools for treating unhealthy alcohol and drug use and promoting behavior change in primary care and other specialties. Emphasis will be on mentored learning in breakout groups, clinical skills acquisition, and practice. All participants will develop continuing learning plans to increase their proficiency. (Seating is limited)

FACULTY: Kenneth Saffier, MD, FASAM, Family and Addiction Medicine, Contra Costa County Health Services Department, Member, Motivational Interviewing Network of Trainers | Rosemarie Campos Sachs, LMFT,
